

Preschool Substitutes

Kelli Fargason

Our family has been a part of Derry Discovery Days for four years, as our second daughter attended the Busy Bee and Butterfly classes. I hold a B.S. degree in Early Childhood Education from Texas A&M University. Before choosing to stay home with our three children, I taught Kindergarten and first grade. My experience is in public schools in Alabama, North Carolina, and for a Department of Defense Primary School. I am eager to support the valuable preschool program that DDD provides our community.

Morgan Smink

I live in Harrisburg with my husband and two young boys. Prior to staying home with my boys, I worked at Central Dauphin School District for several years. In my free time I enjoy traveling, working in my gardens and going to sporting events. I am a big sports fan, especially baseball. We have a goal to get to every baseball stadium. I look forward to seeing some familiar faces from the church nursery!
